SPINNING REELS

SHIMANO EXAGE FD REEL

Exage is part of the P4 reel series and one of Shimano's most popular reels. The new FD model has a sleek 'M' Compact Body design made from XGT-7 material containing 4 shielded stainless steel bearings and a roller bearing for smooth reliable performance. There are four sizes in the range covering most general, spinning and match fishing situations, all finished with champagne and gold graphics. The shallow spooled 3000 size is perfect for match fishing or spinning with thin mono or braided lines.

From Only £45.00

SHIMANO AERO 4000 SPIN REEL

The Aero Spin features a gutsy, powerful 4.8:1 retrieve ratio, ideal for imparting life into any fresh or saltwater lure, and for hauling in the resulting big beasties, and thanks to the small body/big spool design common to the full Aero range, the Aero Spin allows you to cast huge distance, without needing to support a huge reel!

SHIMANO SUSTAIN FRONT DRAG REEL

The Sustain range from Shimano has been a household name in the States and Down Under for years, with good reason, but at long last the Sustain front drag reel is available to discerning lure anglers here at home. Sporting a range of features including Shimano's X-SHIP gearing system, Aerowrap, AR-C Line Management system and CI4 rotor, the Sustain is super light, devastatingly powerful, and has a smoothness and quality that has to be felt to be understood. In other words, not a reel to be messed with!

73)//// NINJA FRONT DRAG REELS NEW

Quite simply the Ninja reels are staggeringly good. Their highly noticeable look is of course backed up with an array of features and typical Daiwa performance.

Their graphite body combined with Air Rotor not only starts the design off with a weight saving benefit but the enhanced rotor shape adds to the reels performance under load. Front drag orientated they are perfect for use even with braid. Winding smoothness is enhanced with 4BB and Infinite Anti-Reverse. Finally rounding off the VFM there is a spare spool supplied.

SPIDERWIRE STEALTH CODE RED

Coloured braids are gaining in popularity and the cream of the crop is Spiderwire's Code Red, suitable for all angling this is the latest long casting fine braid from Berkley. A PE microfibre braid with new 'colour lock' technology means that it holds its colour.

riat it riolus its colour.

Berkley FIRELINE SMOKE

Firelines thermally fused construction makes it a very easy line to handle as it behaves more like a monofil than a braid. Half the diameter of an equivalent nylon and the lack of stretch allows you to feel every tiny bite.

FOX & SUBMERGE SINKING BRAIDED MAINLINE

Fox Submerge sinking braided mainline, available in dark camo, great for Predator fishing with lures, shads, etc.

Code	Lbs	Length	Dia.	١'
FO6769	25lb	300m	0.16mm	
FO6771	40lb	300m	0.20mm	

Only **L29**.99

By using ultra thin materials the J-Braid is super soft and smooth, which you will instantly notice when you feel it. The 8 strand weave results in very high circularity and a super smooth surface that contributes to longer casting distance as well as quieter line travel through the guides and on the reel. Made in Japan.

REACTION JERK BAITS

Strike Pro's fantastic Reaction Bait range blur the edges between lure and bait thanks to their biodegradable, fish friendly formulation. Reaction baits can be rigged up and fished like any rubber lure, and are pre-loaded with pheromones and flavours to attract fish, and will decompose in 48-72 hours if left in the water, harmlessly passing into the aquatic environment. Fish can even eat them!

QUANTLM® BATTLE SHAD

Quantum team angler Lars Vormelker drew upon his many years of experience working as an angling guide to develop this must-have lure: The special paddle tail that folds down in flight and slender body shape create first-class casting properties, and anglers fishing from the bank will particularly appreciate these features. 5 per pack.

YO-ZURI HYDRO TIGER LURES

The perfectly balanced Hydro Tiger popper will lay flush on the water and can be worked above and below the surface. On top, it splashes, spits, and pops. Underneath, it dashes and darts. The brilliant vacuum metalization finish is enhanced by the etched lateral line and huge, lifelike 3D eyes. The Hydro Tiger features through-wire construction for maximum durability.

Garcia McMY TAIL

This lure weights in at 50g with a body length of 10cm, then add on the tail for a total length of 22cm.

A jerkbait does not need to be heavy and difficult to fish. McMy Tail fits lighter equipment, but catches big. You can use regular spinning equipment and the lure will glide easily side to side. In slow retrieve you will get a soft S-curve action. With the irrational swimming action, you fish depth between 0.5 and 1.5 m. McMy Tail works well with both soft and stiff leader.

Garcia McMIO TAIL

The McMio Tail features a 60g body and measures in at a 9cm body length, 24cm in total with the rubber tail. It requires no special equipment, but can be used with multipliers and fixed spools, and soft or stiff tippet. It is slow sinking and fishes at depths of 0.5-2m. The McMio Tail also features the Svartzonkers unique rigging scheme that ensures a positive hook-up, and cuts down on damage to rubber tails.

MR WHIGGLEY

Mr. Whiggley is the opposite of mechanical. He doesn't do the kinds of things that fish see other lures doing because he doesn't have a bill to dictate rhythm or restrict glide. Plus just laying in your hand, without even moving, most folks would agree he looks more like a real fish than any lure they've ever seen.

Mr. Whiggley works in both fresh and salt water and will catch any fish that eats other fish of that size! 2 per pack.

Size: 10.5" Weight: 92g.

River Ses S-WAVER LURES

S-Waver is the hottest swimbait in the world. Featuring a natural "S-Action" swimming motion, the S-Waver will seductively wake the surface and call big predators in for a closer look.

River2Ses WHOPPER PLOPPER

At River2Sea they were catching so many big pike, musky, big bass, both largemouth and smallmouth on the 19cm whopper plopper they had to downsize it to add into the arsenal! It operates at speeds from crawl so super slow you can't hear the tail, only the tiny glass beads that sizzle inside as the head shakes back and forth with each rotation of the tail. Speed it up and it throws water like a swamp buggy and has the same deep, hollow, whopperplopping-fish-catching sound of the original! 1 per pack.

हिंदु PRO SHAD NATURAL CLASSIC

Fox Rage have released a range of shads that are ideal for vertical fishing, twitching, jigging, trolling and spinning. The Natural looking shads only come in natural looking colours and are made to mimic baitfish. The rubber of the shad is designed to be subtle yet tough enough to stand up to the teeth of predators.

REPLICANT JOINTED

Built upon the lauded basis of the Fox Replicant Lure, these sizeable lures are designed with a shape and movement identical to that of a young Rainbow Trout, finished in a range of highly attractive patterns that any self respecting Pike, Cartfish or Zander just won't be able to resist. 9 inch length. Weight: 150g.

Are you looking for something special, a kind of breakthrough in the shad market? You have found it – the name is Spikey! Everywhere Spikey was shown it caused

You have found it – the name is Spikey! Everywhere Spikey was shown it caused quite a stir. With its 264 spikes it produces micro vibrations, which are extremely attractive for all predators. These spikes are very flexible for a natural life like feeling and give the fishermen the opportunity to add long lasting bait pastes onto the lure. It is injection moulded, with a super soft rubber mixture giving the perfect lure shape and a very attractive movement, even with the slowest retrieving rate.

REPLICANT TWIST Fox Rage have returned there famous Replicant,

However this time they have done some changes. The Twist version has a long twister tail which will produce huge movements in the water and cause vibrations that will get predators to react to. If that wasn't enough they have put a spinner blade on the lure for extra attraction even at the sinking phase of the lure. The lure can be jigged and used for ordinary spinning, its a deadly tool for all predator anglers.

19cm length. 60g weight.

AMAZING UNDERWATER CAMERA!

SAVAGE GEAR >> WATER WOLF UNDER WATER CAMERA

Innovative water sports camera developed especially for fishing. The Water Wolf UW 1.0 is waterproof to at least 100m and is also shock proof.

Fully charged, it has four hours of recording which is equivalent to a 16GB Micro SD Card. HD Ready 720p wide screen format - 30 frames per sec for optimum light sensitivity. The camera comes with a smart, easy to rig, stainless steel stick that gives it perfect stability when moving

through the water. Three different add-on weights give different sink rates and filming angles. Provided with the camera is an add-on float to film any bait fishing situation and a very smart EVA carry / strap bag that can be mounted in a number of ways.

- Underwater camera specifically designed for fishing
- · Use for trolling, casting, float or bottom rig carp fishing
- Anti-wobling retrieve
- 4 hours recording
- Tested down to 100 meters
- Uniquely designed and engineered in Denmark
- Protected by 3 different patents

MESTIN' MIKE THE PIKE LURES

Amazingly lifelike down to the smallest detail, with two rigging options.

Mike the Pike is designed to be the ultimate prey for the meanest alpha predators out there.

MESTIN JATTE SHALLOW RUNNERS

Made for big fish in shallow water. For a couple of seasons a few Scandinavian pike specialists were catching impressive numbers of Pike over 10kg by cutting down the lip on some of their old 170mm Westin Jätte lures. This way, the popular wobbler with its unique slow, rolling movement could be fished in very shallow water

SAVAGE GEAR 🦙 CRAZY BLADE

Savage Gear's Crazy Blade Jigs are designed to create enticing vibrating and pulsing action on the retrieve and a crazy erratic and random escape pattern when Yo-Yo'ed. On the drop the lure swims with a subtle escape pattern and on the lift it goes crazy and panics away from the centerline. The Crazy Blade jig is designed with inspiration from the Bleak (Alburnus Alburnus), one of the most important prey fish across Europe. 1 per pack.

SAVAGE GEAR >> 3D ROACH SHINE GLIDERS

Superb detailed baitfish imitation, with the liveliest and provoking sliding swimming action. The Restricted V-joint and TPE tail – gives a great bounce and kick in the water – simply too much for the predator fish to resist. Great for trolling as well, with a wide glide and shifting action even a slow speed!

- 3D Scanned details
- · Restricted Kicking V-joint
- · Soft ultra-realistic TPE tail (tooth proof)
- · Slow floating for Stop and Go action
- Great rolling action
- Medium diving depth 1-2,5m
- · Big Speed Window
- Ultra Sharp Savage Gear Y-Trebles.

SAVAGE GEAR LURES

SAVAGE GEAR 🦙 3D BLEAK GLIDE SWIMMER

In its quest to produce the perfect lure in appearance and action, Savage Gear has combined 3D scanning and 3D modelling. It has carefully studied a real bleak especially its escape patterns, and has developed a lure that 'looks and swims as realistically as possible'. Savage Gear Says: "The bleak is one of the most important prey fish for many European predators. The 3D Bleak Glide Swimmer is irresistible to even the wariest fish.

3D MANIC SHRIMP

Savage Gear set out to make one of the most life-like shrimp baits possible in both looks and underwater movements to trigger these pressured fish into biting. To create the ultimate bait they started with the real thing; actual shrimp, which were then 3D scanned to create the most detailed shrimp lure possible.

OKUMA CARBONITE REELS

SHIMANO AERO 4000 REELS

The Aero range from Shimano have been designed to harness Shimano's strong Japanese engineering tradition, and to this end feature simple, effective designs,

with a mountain of Shimano technology on the inside.

The Aero Feeder features an oversized spool utilising Shimano's AR-C line management, to make your feeders fly from the rod smoothly and accurately.

The Aero Match, as its name suggests, is aimed directly at the Match market, with a furable double-handle, a fast and powerful 5.2:1 gear ratio and big

diameter spool for minimal memory and smooth casting .

SAVAGE GEAR 🧼

SAVAGE GEAR 🦙 HYBRID PIKE

A super realistic Baby Pike imitation loaded with innovative features! Unparalleled 3D Scanned details will fool even the most vary predator fish and ensure you brutal attacks. The Paddle tail will give the lure an incredible lively and rocking action with a clicking rattle chamber driving the predator fish crazy!

The innovative release rig, enables the rear hook to detach from the lure Body when a fish is hooked. The rig is mounted to a build in swivel - so the fish have a very hard time to roll on the lure and use the force to pull out the hooks. The clever system also protects the soft part of the lure, from staying in the Toothy zone!

Features

- 1xBody + 1xCurltail + 1xPaddletail
- Runs from top to 6 feet
- 3D Scanned details
- Tournament trebles and Components
- · Stainless steel release rig
- Corkscrew tail mount
- Multiple action, riggings and run depths (Up force & down force)
- · Paddle tail with removable rattle
- 17cm Hook size #1

SAVAGE GEAR >> 3D ROACH JERKSTER

Superb detailed baitfish imitation, with a great side-to-side action on jerk and twitch, big sliding action on steady retrieve! Incredible provoking action with big side flash - simply too much for the predator fish to resist. The unique chamber accessed from the back of the lure, enables you to change the sink rate and sound of the lure very easy! From very slow sink to medium sink and from silent to very noisy - brilliant concept. Mounted with Ultra Sharp Savage Gear Y-Trebles.

- 3D Scanned details
- · Adjustable sink rate and sound
- · Great side flashing action
- Spare plug and ball kit supplied with lure
